TECH & FABRIC GLOSSARY

PERFORMANCE

One of the best-selling polos in the world, now in its 3rd generation, our latest performance polo fabrication is now lighter and more breathable than ever before to keep you even cooler and focused on the course. The 4-way stretch material wicks sweat and dries really fast while the UPF40 protects your skin from the sun's harmful rays.

T2G

Built for an ultra-comfortable fit and feel, while giving you sweat-wicking, heat-battling, performance. This polo uses a smooth, soft anti-pick, anti-pill fabric, with a UPF 50+ to protect your skin from the sun's harmful rays. The T2G polo keeps you focused on your game from Tee to Green.

PLAYOFF

The Playoff Polo 3.0 is quick-drying, light, and super stretchy, so it moves with every swing without ever interfering. It's built to wick sweat and dry fast so you can stay focused on every shot.

ISO-CHILL

Iso-Chill fabric helps disperse body heat, making it feel cool to the touch. By flattening out the fibres and adding some science to create a game-changing fabric that quickly pulls heat away from the skin—Iso-Chill keeps you calm, cool, and protected thanks to UPF 50+.

STORM MIDLAYER

Our storm midlayer fabric gives you extra warmth without packing on weight or bulk. How? We use hollow fibres that trap heat but with less weight than solid fibres. Rain also rolls right off, so you can wear it in any weather.

SWEATERFLEECE

The original water-repellent lightweight fleece. We combined the comfort and warmth of a sweater, the performance of our stretchy, lightweight fleece, and the rain protection of a jacket. You'll wear it all season.

WINDSTRIKE

Storm Windstrike offers you protection from the wind and the rain. Utilising windproof materials and UA Storm water repellency, this gear is for the serious golfers who stick it out and play through anything.

DAYTONA

Breathable insulation paired with lightweight, smooth spacer fabric for just the right amount of warmth. This is the one layer you don't have to keep taking off and putting on all day. That's because it actually adapts to the temperature, keeping you warm when it's cool, but letting out extra heat as the day gets going.

REVO

33% lighter while being 74% warmer thanks to a breakthrough in UAs insulation innovations, the new Revo fabric will deliver even more warmth without the bulk for golfers looking to stay warm out on the course.

DRIVE BOTTOMS

Made to move with your swing, so you stay at the top of your game, our Drive Pants are light, stretchy, and built specifically for today's athletes. Because when you can move better, you can play better, too. We even added UA Storm to repel water without sacrificing breathability to keep you dry.
